

TIGER OF SWEDEN

SUPPLIER LIST, UPDATED 01.07.2023

At Tiger of Sweden, we believe that the customer has the right to know where their clothes are made and that transparency of a company’s manufacturing supply chain better enables a company to identify risks and strengthen a company’s human rights due diligence. We want to increase the transparency in our business and therefore we share below our list of our garment manufacture and fabric mills. Today we update our transparency lists one time per year. This list include garment manufacturers we have place orders with for the last 12 months. Until now we are able to include 100 % of our garment manufactures (Tier 1). By 2030 we aim to achieve complete visibility across our supply chain, including our raw material suppliers, material suppliers, and factories.
